Finance Lease

Finance Lease is a rental agreement where you may share the potential risks or rewards of the future resale value

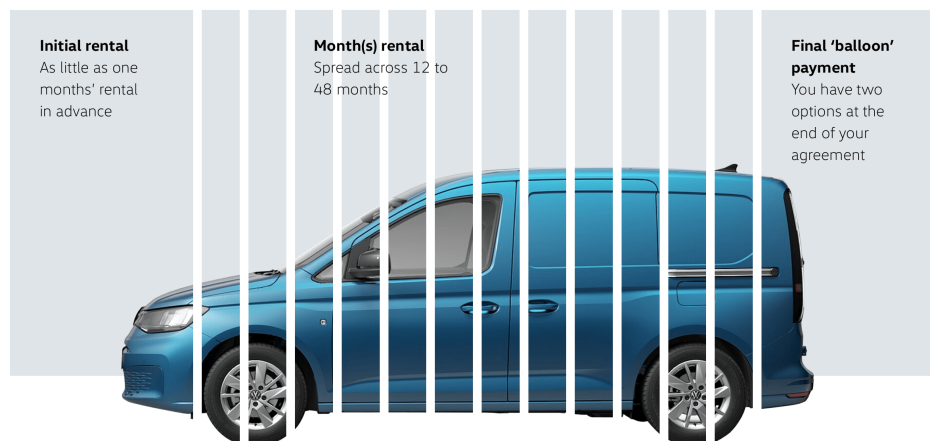

How does it work?

Finance Lease is a rental agreement that gives you the opportunity to share in the sales proceeds at the end of the agreement. There are two types of Finance Lease agreement - 'balloon' payment and full pay out. This page explains 'balloon' payment Finance Lease.

'Balloon' payment

This is when you defer a proportion of the value of the vehicle until the end of the agreement generating lower monthly rental payments. This must be paid at the end of your agreement, irrespective of whether the proceeds of the sale of the vehicle covers it.

Cost of leasing your vehicle

Once you have selected your initial rental, there are three decisions to make that will affect your monthly rentals:

- **Your rental payment period**
Choose any period between 12 and 48 months
- **Final 'balloon' payment**
Defer an agreed amount until the end of the agreement. This is known as a 'balloon' payment
- **Mileage**
Choose how many miles you expect to drive each year

- It is really important that you keep up to date with your monthly payments, so please contact us if you are having any difficulties as the vehicle may be at risk if you don't

- Sell the vehicle on behalf of Volkswagen Commercial Vehicle Financial Services to an unconnected third party and then settle the final 'balloon' payment. You can then share in any excess sales proceeds

Will I own the vehicle?

No you will not own the vehicle and you are responsible for selling it at the end of your agreement unless you choose to enter the secondary hire period in order to retain use of the vehicle.
