Safety and security

Airbag's - side and curtain for driver. Upon activation, the head airbag inflates vertically downwards and positions itself in front of the side window like a curtain. Side airbags protect the head and upper body. They support the effect of all constructional design measures incorporated in the bodywork (e.g., door reinforcements) to protect the vehicle occupants in the event of a side impact. The side airbag for the driver is integrated in the backrest of the driver's seat and inflates between the door trim and the driver.

The Crafter panel van

This brochure supersedes all previous publications.
Issue: 1 April 2025
www.volkswagen-vans.co.uk

Please note: Screen technology does not allow exact reproduction of the paint and upholstery colours. Some of the vehicles shown are European specification and may be fitted with optional equipment or accessories that are available at extra cost, or do not reflect current specification. All data and specifications are in accordance with information available at the time of publication and are subject to change without notice. Vehicles not currently in UK stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory-fitted options are not compatible and therefore all orders received are subject to confirmation. Models, factory fitted-options and paint and upholstery options are subject to availability. Please check details and availability with an authorised Volkswagen Van Centre at the time of ordering.
