

Factory extended warranties.
There's no end to our efforts
to make our vans work for you.

Extended cover means greater protection for your business.

Every new Volkswagen Commercial Vehicle comes with a three year warranty, protecting you against the costs of unexpected repairs. Now you can extend this warranty for one or two years, or up to 150,000 miles, whichever comes first.

We have a range of flexible options at competitive prices with 80,000, 120,000 and 150,000 mile limits.

In addition we also now offer 3 years unlimited mileage across our range of vehicles.

The table opposite provides a summary of prices. It also shows you a comparison with the cost of taking out a typical third-party warranty extension at the end of the Volkswagen Commercial Vehicles' three-year warranty.

The savings offered by our extended warranty against these third party insurance-based extensions can be as much as 65%.

What's more, taking out an extended warranty is a simple matter, which our Sales or Aftersales team will be happy to arrange.

One thing you should note is that, to take advantage of any extended warranty package, you must purchase it within three months of your vehicle's initial registration.
