Built in conjunction with

Volkswagen Crafter

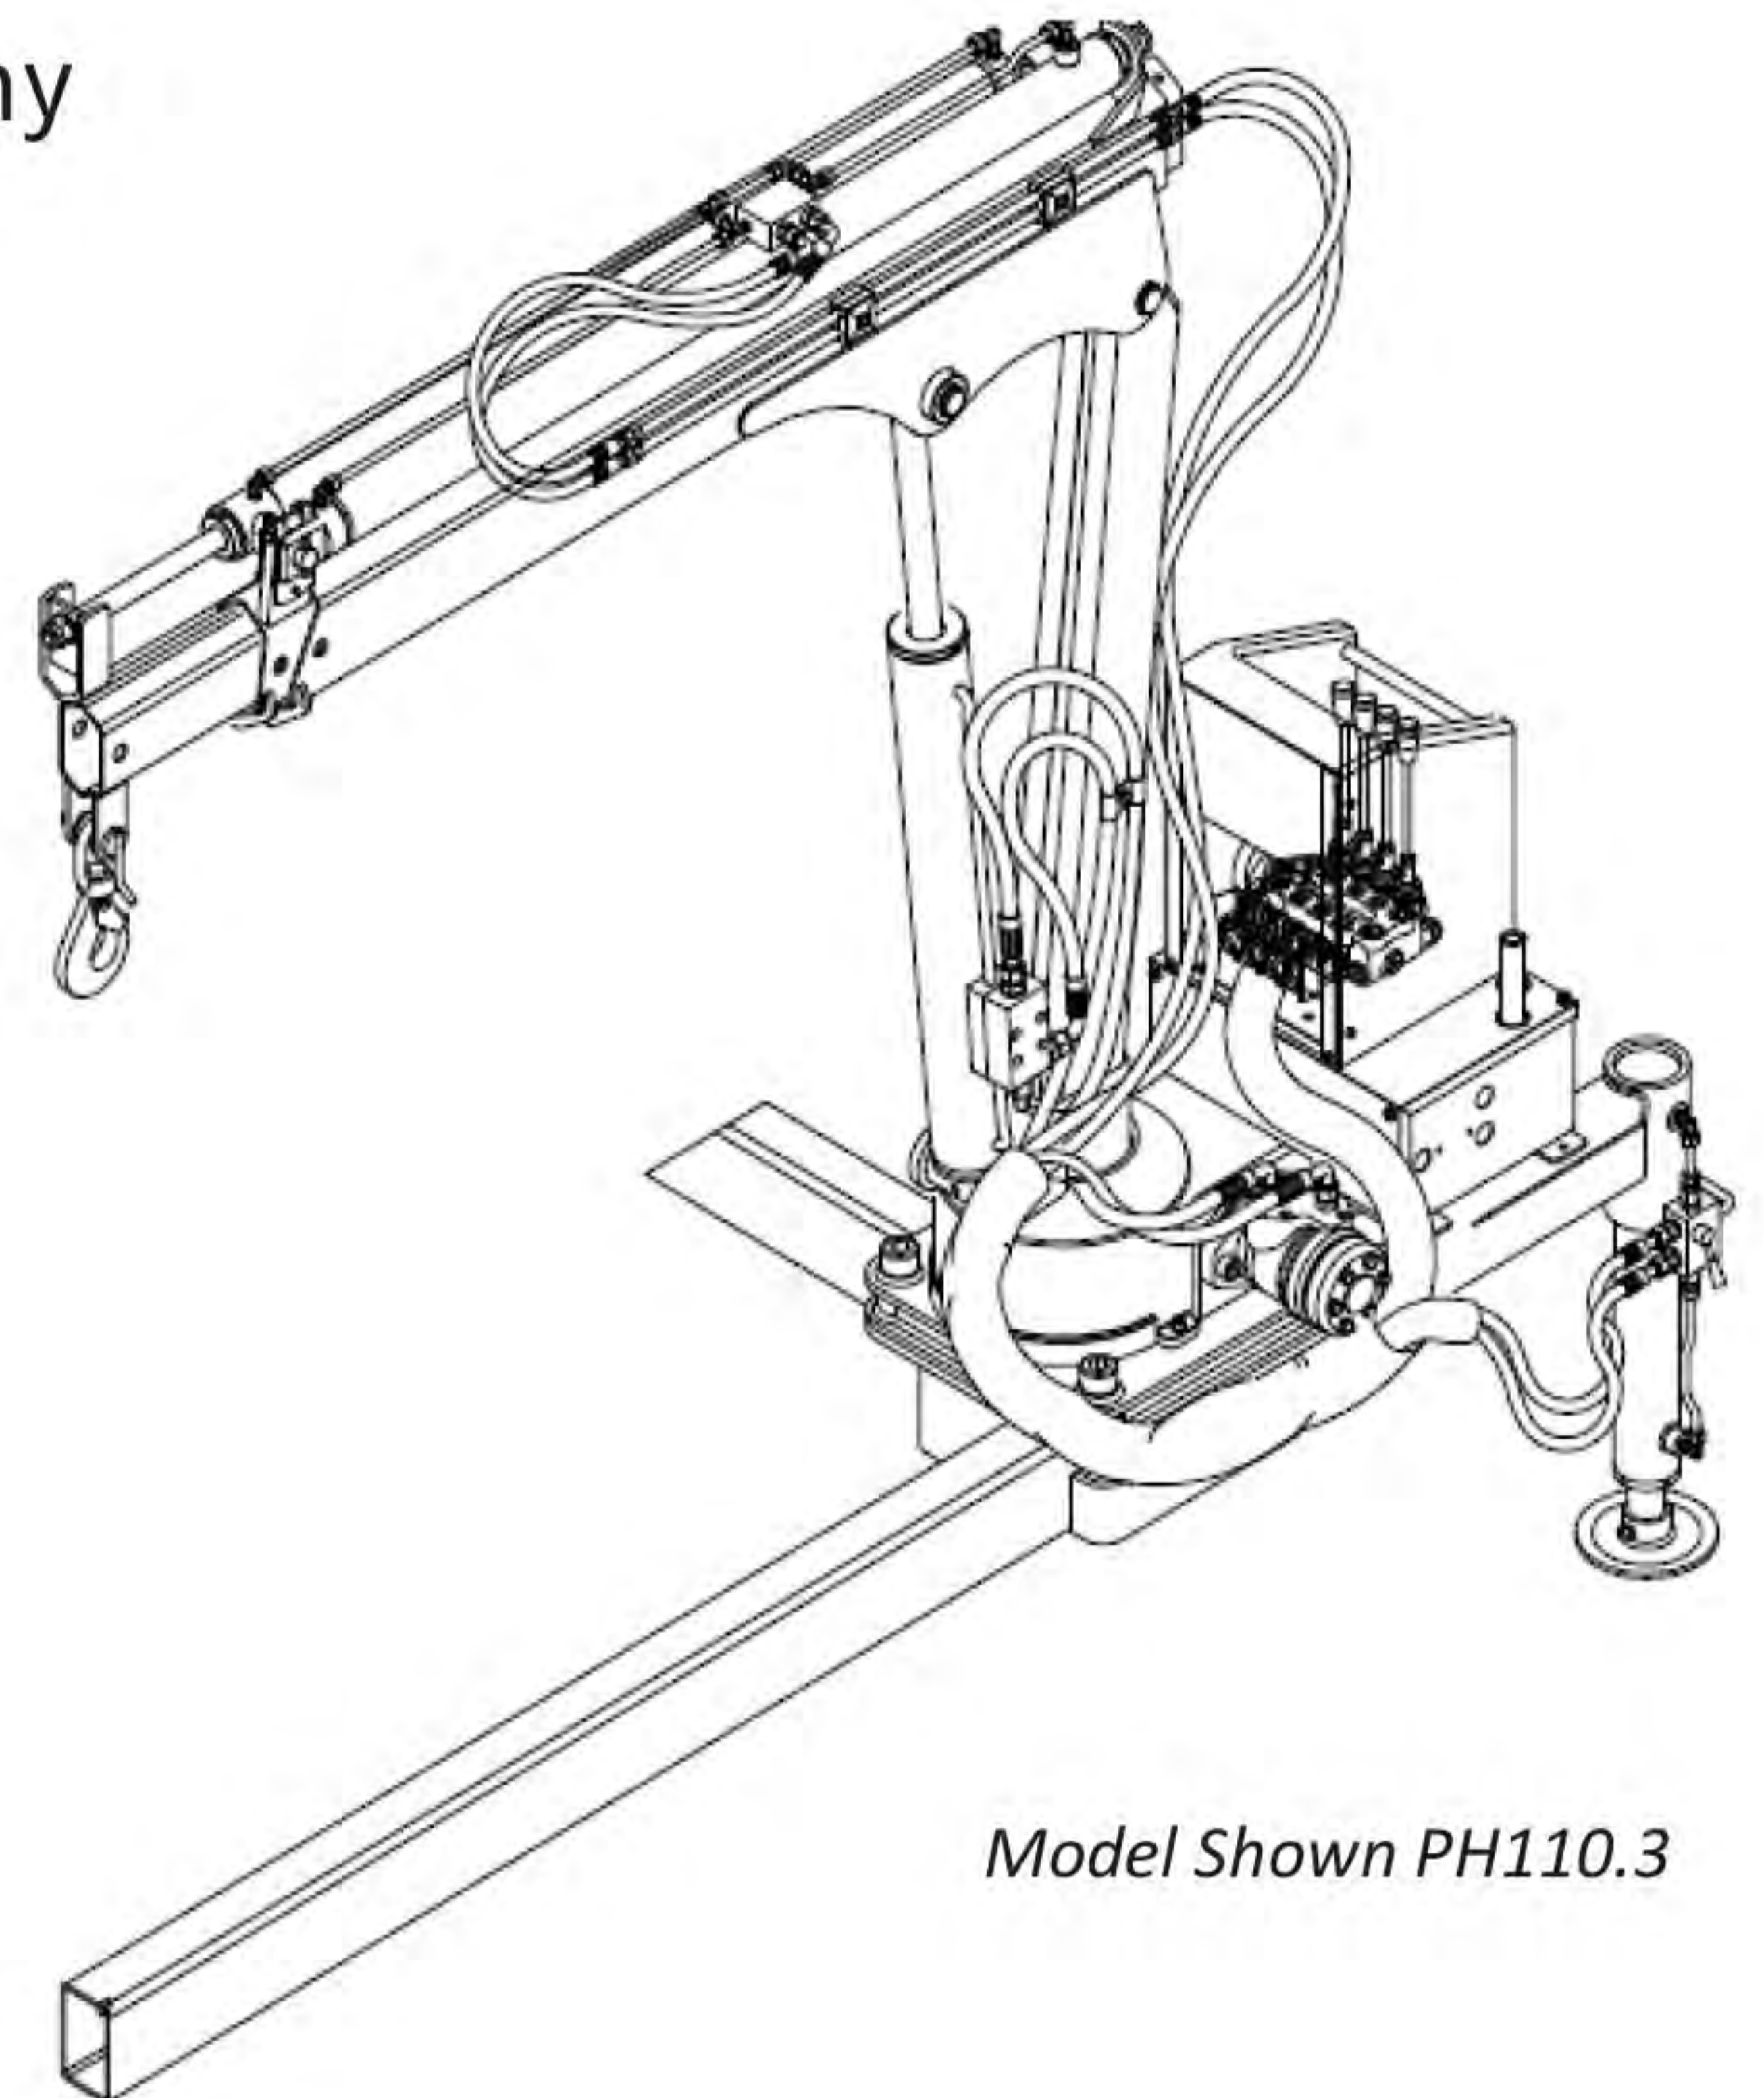

with Hydraulic Cranes

Commercial
Vehicles

Working with our Accredited Convertor Penny Hydraulics we are able to offer a range of Hydraulic Cranes and lifting platforms.

The PH110.3 is a lightweight, compact, yet very capable hydraulic crane which makes a great companion to the Engineered to Go™ Crafter dropside.

Model Shown PH110.3

- 990kg lifting capacity at 1100mm
- Max. extension to 4500mm with a lifting capacity of 200kg
- Optional wander lead or remote control operation
- Hydraulic and manual stabiliser legs available
- Stabiliser pads with storage bags
- Fixed cost crane service & maintenance packages
- Minimum warranty period to match base vehicle

Peace of Mind

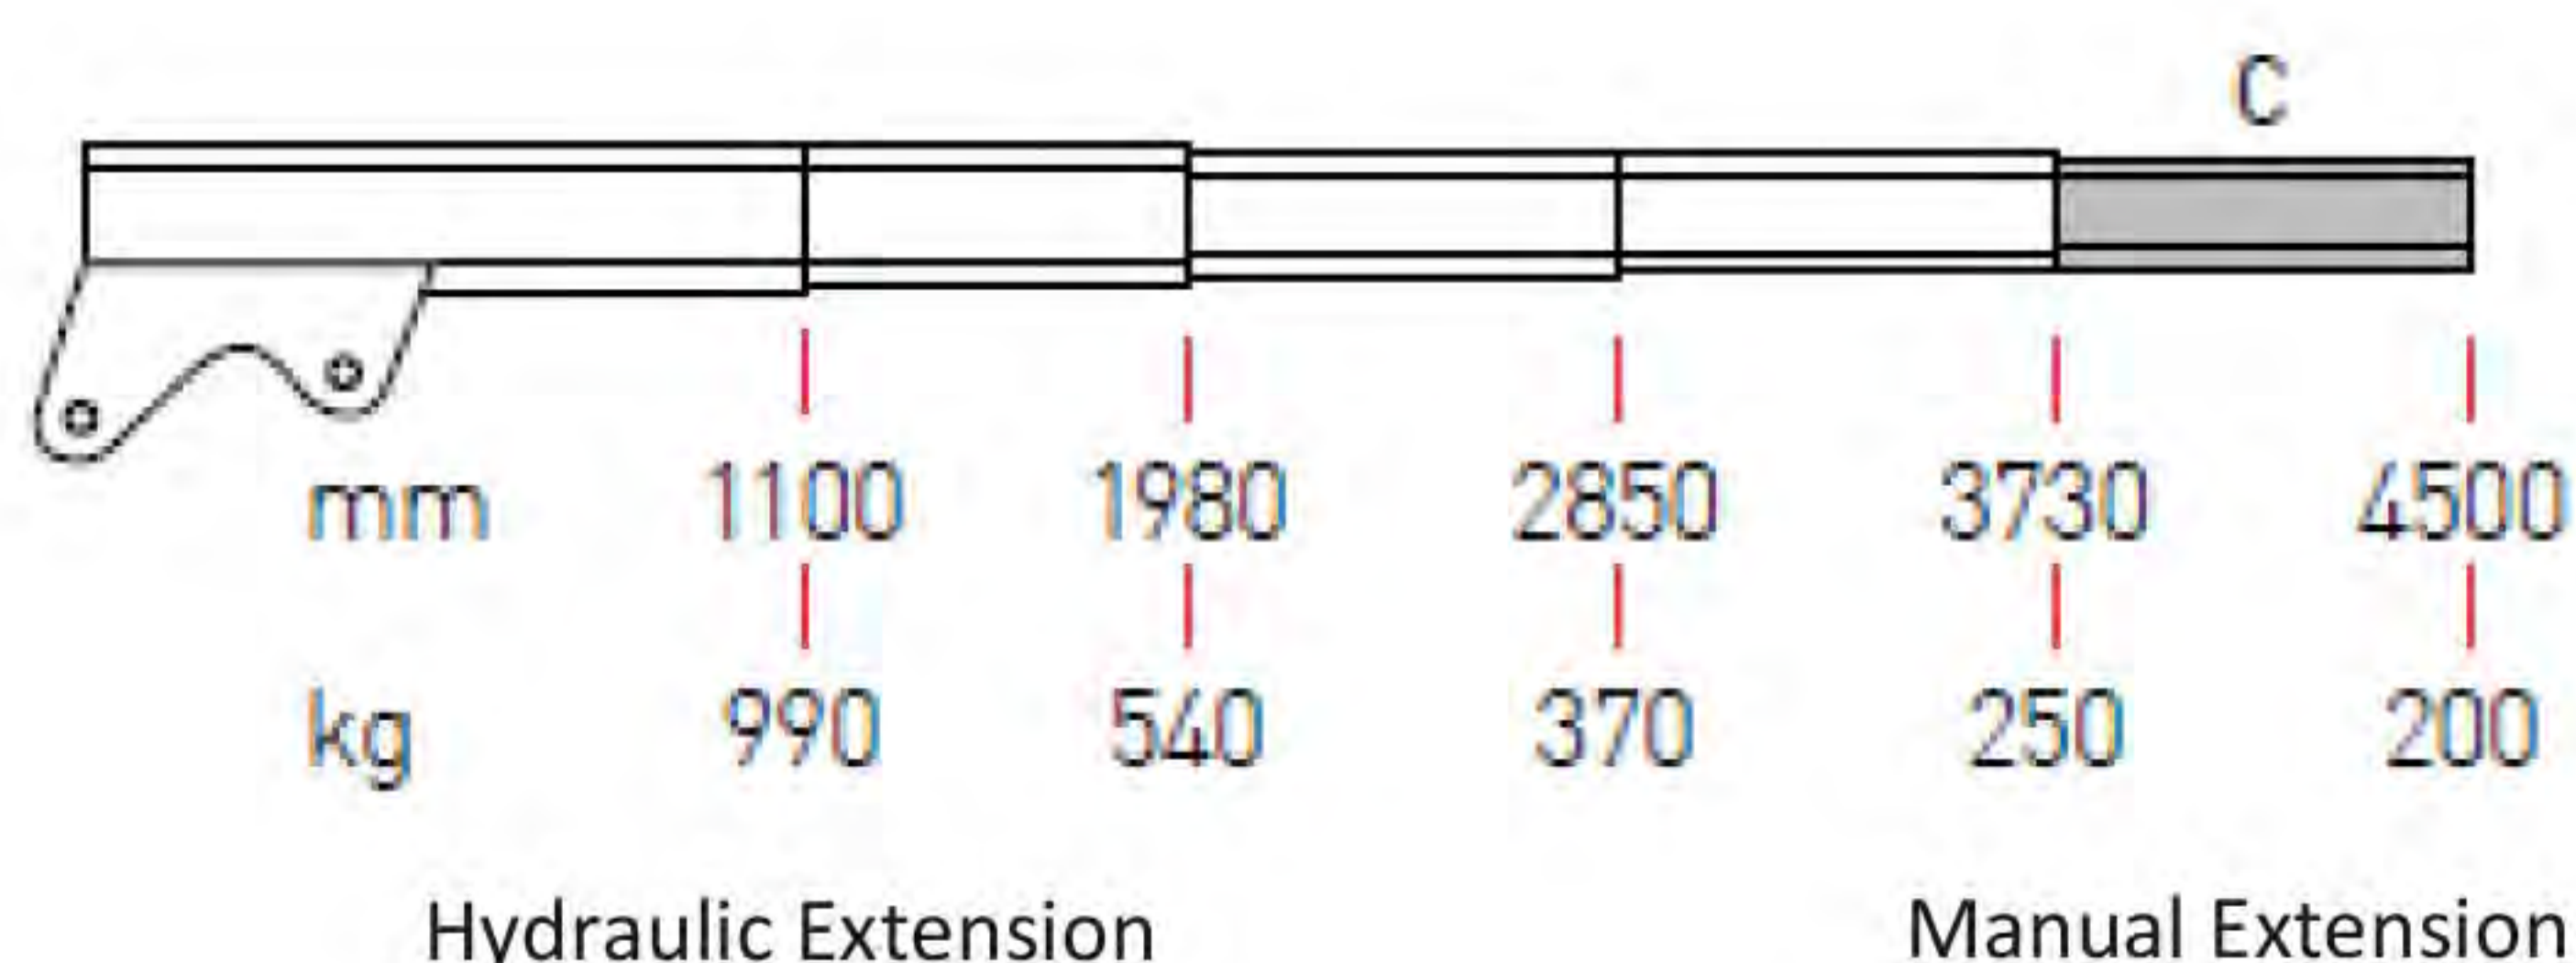

Penny Hydraulics offer a next working day unlimited emergency breakdown service to ensure your equipment is up and running in no time.

Engineers carry a full stock of replacement parts so that in almost all cases they can fix any issues on their first visit
